(54) Title: DISPLAY ELEMENT AND DISPLAY USING SAME

(54) 発明の名称: 表示素子およびそれを用いた表示装置

(57) Abstract: A display element has a light source and a waveguide for propagating light emitted from the light source. The light propagated through the waveguide is taken out of the side face of the waveguide to the outside. By varying the shape of the side face of the waveguide, light is taken out of the side to the outside.

(57) 要約: 光源と、光源から出射された光を伝播させる導波路とを備え、導波路中を伝播している光を導波路側面より外部へ取り出す表示素子であって、導波路側面の形状を変化させることで、光を導波路側面から導波路外部へ取り出す表示素子。

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP03/14047

Box I Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:

because they relate to subject matter not required to be searched by this Authority, namely:

2. ☐ Claims Nos.:

because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. ☐ Claims Nos.:

because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The technical feature common to claims 1-14; 24, 25; 27; 29 and claims 15-23; 26; 28 is substantially "a display comprising a light source and a waveguide for propagating light emitted from the light source and adapted to take the light propagated through the waveguide out of the side face to the outside". However, the common feature is not a special technical feature within the meaning of PCT Rule 13.2, since it makes no contribution over the prior art (As prior art documents, JP 11-202222 A, JP 7-287176 A, and SID 98 digest pp.1022-1025 are cited). Therefore, there is no special technical feature common to claims 1-29. Consequently, no technical relationship (Continued to extra sheet.)

1. ☒ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☒ No protest accompanied the payment of additional search fees.
